

[Application](#)

Folder containing data and files used in our application, the battery life measurer

[Application\Data](#)

Raw data taken from measuring batteries for our application

[Application\Battery Measurements.xlsx](#)

Visualization of the raw data in a more readable form

[Application\Design of Experiment.txt](#)

Description of the experiment we constructed to measure battery voltage over time, and what we did with this data

[Application\Load Requirements.txt](#)

what we required from our load in order to accomplish our experiments

[Application\nano-cc-el-0v5](#)

The code that we implemented our application with.

[CC-El Documentation](#)

Documentation on the Electronic Current Load

[CC-EL Operation](#)

Documentation on the operation of our Electronic Current Load

[Presentation](#)

Presentations presented by our group

[Presentation\Battery Life Measurement Poster Bozarth.pdf](#)

Poster presented by Scotti Bozarth

[Presentation\Battery Life Measurement Presentation Bozarth.pdf](#)

Presentation presented by Scotti Bozarth

[Video Demonstration](#)
